VIC.AI

The leading AI platform for accounts payable

The Vic.ai APSuite™ is more than an AP automation tool — it's an AI-native platform, purpose-built to transform accounts payable from a cost center into a lever for value creation. By working seamlessly alongside ERP systems, Vic.ai closes critical gaps in invoice processing, approval workflows, bill pay and expense management.

Vic.ai delivers a modern AP tech stack to elevate business performance and future-proof finance operations. This means leaner back-office operations, faster close cycles, and actionable intelligence to drive profitable growth with AI at the core.

AI designed to evolve with your business

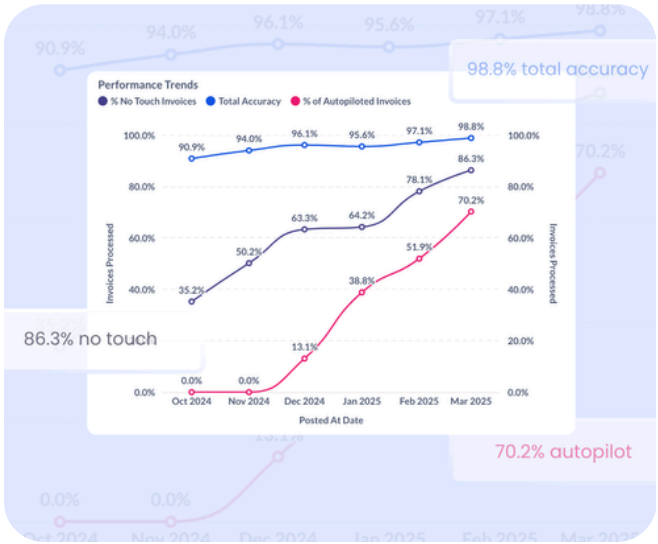

Vic.ai's domain-specific AI is purpose-built to streamline AP processes; not a generic model retrofitted for finance. Trained on over one billion invoices, it delivers unmatched accuracy and the adaptability needed to handle the full spectrum of accounting scenarios.

Vic.ai customers experience a tangible — and trackable — return on their investment, with transformative accuracy and efficiency gains from day one.

Ideal customer: High invoice volumes and AP complexity

Vic.ai is best suited for AP teams processing high invoice volumes with varying levels of complexity. The platform is designed to handle the realities of enterprise finance, supporting organizations with complex PO matching, multi-entity or multi-location structures, and even multiple ERP environments.

Vic.ai helps finance teams unlock meaningful FTE efficiency gains while ensuring accuracy at scale.

Where AI meets ROI: Why PE backed companies choose Vic.ai

Measurable AI-driven Value Creation

- 97% accuracy across predicted fields
- 70%+ invoices on autopilot
- 50%+ FTE time savings

Working Capital & Cash Flow Optimization

- Majority of invoices processed in seconds
- Early-payment discounts captured strategically
- Predictable payment timing from day one

Built for Scale and Complexity

- Multi-entity, multi-ERP environments
- High AP volumes (1k - 100k+ inv. / month)
- Scale without adding headcount

Payments made with speed

- Vendors receive funds ~2 business days after initiation using VicPay
- Same Day ACH for transactions up to $1 million

Vic.ai APSuite™

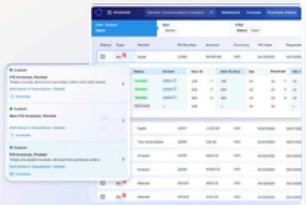

AI Invoice Processing

AI-first platform. Improve invoice processing productivity by 5x.
